

INDUSTRIAL CADETS YOUR DIGITAL BADGE

CONGRATULATIONS ON RECEIVING YOUR INDUSTRIAL CADETS BADGE!

Celebrate and promote your achievements

The only way you can receive one of these is by completing an Industrial Cadets accredited experience, so you should be very proud!

Your digital badge can be displayed on your CV, social media accounts or profiles (including LinkedIn) and added to covering letters or job applications as a quality mark.

Your badge emphasises that you have participated in an accredited experience and have met the requirements for Industrial Cadets. Meeting these requirements means that you are able to demonstrate the skills and competencies outlined in the skills and competency framework - if you're not sure what these requirements were, have a look at the framework outlined in the Industrial Cadets Starter and/or Completion packs (welcome pack for Challenger level).

These are key skills that will help you when you begin considering future careers or academic choices, you can use these as a starting prompt when writing job applications, supporting statements or when applying for apprenticeships, or as a conversation starter during interviews.

STEAMstars

STEAMstars are people who have a passion for STE(A)M (Science, Technology, Engineering, the Arts and Maths) and are inspired to make a difference in today's world!

WHY DON'T YOU BECOME A STEAMSTAR AND HELP US TO INSPIRE OTHERS?

Email us at marketing@etrust.org.uk and we will send you a case study template to fill out! You will have the chance to feature on our website and other marketing materials.
